What assistance is provided?

- 1. Obtaining additional services**
- 2. Maintain benefits**
- 3. Locate community resources**
- 4. Transition planning**
- 5. Overall develop the life you want to live**

OBTAINING ADDITIONAL SERVICES MAY INCLUDE:

CCC case managers will walk with you every step of the way in finding the services that best suit your needs and interests. Your case manager will grasp a good understanding of your needs and interests and aid you in finding the appropriate supports that will best fit your individual needs. Not only will they assist you in finding those services but will continue to oversee the service delivery to ensure your safety, well being and satisfaction.

Maintain benefits:

Your CCC case manager will work closely with you and your SRS worker to ensure you retain your benefits. They will assist you with obtaining benefits and locate additional assistance or resources as needed.

Locate community resources:

Your CCC case manager wants to ensure that you have access to your community. He or she will gather information from you on your interests and help you locate additional community resources.

TRANSITION PLANNING:

Change is important for growth. Transitions can be frightening. Your case manager is available to walk you through transitions and work with you, your family, school service, service provider and offer you support. Many options are available throughout your life time not only transitioning from school but into a job, new home or new services. Your case manager will work closely with you and your team to make these changes a little bit easier.

Overall develop the life you want to live:

We at CCC view each person as an individual that has different interests and support needs. The services we provide are very individualized. We get to know you on a very personal level so we can help you live the quality of life that you deserve.~
