

Erin Goodwin,

December 2018, I graduated from Emporia State University with a Bachelors of Science majoring in Rehabilitation/Counselors Education. During my 4.5 years of study, I worked as a Mental Health Worker. While employed I worked with children who had emotional and behavioral difficulties. Furthermore, I have experience working with individuals with Intellectual and Developmental Disabilities. It has been a dream of mine to work one on one with people and serve as a Targeted Case Manager. I am eager to begin this new journey in life and help individuals accomplish their goals and dreams.

Sean Parks,

I graduated from Kansas State University with a degree in Sociology. I have worked in a variety of Case Management settings before becoming fortunate enough to align with Serenity Case Management. I have a heart for people, especially those that society attempts to ignore. My passion is in helping the voiceless have a voice that can be heard loud and clear. I am a husband and father who believes that faith, hope, and love can change any situation for the better. I am committed to my clients well-being and this commitment drives everything I do. I look forward to bringing my commitment and my large experience base to work serving the Shawnee County Area!

Stephanie Skedel, I graduated from Baker University in 2016, with my degree is Sociology. Since graduating I have worked as a Targeted Case Manager for over a year before moving to the Aging and Disability Resource Center, where I worked with the CDDO completing BASIS assessments and being an Eligibility Specialist for the I/DD waiver for the past year and a half. I also received experience as a Geriatric Case Manager and completing other Medicaid assessments. I am SO EXCITED to be apart of Serenity Case Management because I miss working with individuals with Intellectual and Developmental Disabilities full time and I am so pumped to be back! My goal is client first and foremost and I look forward to serving the Douglas and Shawnee area!

Elizabeth Barkley, I am the founder and Executive Targeted Case Manager for Serenity. I would like to introduce my staff in this brochure as you get to know us and allow us to be a part of your family! I founded Serenity in April 2018! I have been working in the I/DD field since 2011. I am totally consumed with the friends that I have made along the way! I cherish the memories that have been made, the tears that have been shed and all the many many laughs along the way. I am a single mother of two very busy and loving teens. I have a strong foundation of family, faith, and love for all creatures. Targeted Case Management became my passion in 2016. It did not take long before I knew this was my path in life. Not only does it allow me to advocate for those whom otherwise wouldn't have that friend in their life, it has also allowed me to be a better mother to my own children.

Sandy Wood, I am so excited to be a part of the Serenity Case Management team. I started with Serenity June 1st of 2018. It has been a blessing to be a part of brainstorming and creating a Case Management idea/team for IDD that is unique with passion, heart felt and a commitment that focuses on the persons who we serve. My passion developed with going into this field of IDD started when my brother was born with Down syndrome in 1970. I graduated from Ottawa University with my Psychology Degree. I have 33 years of experience working with children. I have a blended family with nine adult children and 4 grandchildren. I am passionate, empathetic and sensitive to others. My work goal is to continue to make a difference with each individual. My personal goal is to accept the things I cannot change, courage to change the things I can and the wisdom to know the difference.
